SKILLS

- Node.js
- TypeScript
- React/React Native
- Vue.js
- MongoDB/Postgres
- Docker
- Git

AWARDS | ACHIEVEMENTS

- Open source Linux app with 200K+ downloads
- 1st place New Products Fair with a Home Automation project
- 1st place Science Fair with health app for Android
- 1st place at 2 coding challenges at 42 Silicon Valley

PROFILE

As an organized and meticulous employee, I work efficiently to meet deadlines and contribute to my team's success.

EXPERIENCE

Software Engineer II, Hinge Health; San Francisco, CA — 2022–2024

- Developed automation for various manual internal processes, speeding up our capacity to serve our users with new content
- Worked on a big React Native codebase, fixing issues, improving performance, and developing new features
- Ensured new features were correct and didn't introduce regressions by writing unit and integration tests
- Worked on Octopus, an internal tool to aid physical therapists in providing more tailored content to our users
- Interviewed applicants and trained new hires

Software Engineer, Overflow App Inc; San Jose, CA — 2019–2022

- Created project specifications based on customer requirements
- Integrated third-party tools and components into applications
- Developed back-end features using Node.js
- Wrote server creation and maintenance guides
- Successfully migrated servers to a new platform with zero downtime
- Implemented a fast CI/CD setup for testing and deploying code
- Conducted scheduled server maintenance and data migrations
- Designed a safe and modular authentication system with RBAC, 2FA, and email/phone verification
- Built an internal management dashboard (full-stack)
- Developed libraries for data validation and encryption
- Set up integrations between development tools for better issue tracking and error reporting

Software Engineering Consultant, Alaminas; Uberlândia, MG, Brazil — 2021–2021 (6 months)

- Helped a team of two engineers develop an internal management dashboard
- Created designs for an app the company's drivers adopted as a replacement for manual spreadsheet tracking

EDUCATION

42 Silicon Valley, Fremont, CA — Software Engineering
IFTM, Uberlândia, MG, Brazil — IT Technician
